To Whom It May Concern:

This letter serves as a testimonial for Mr. Bob Coffman and **Caddy for the Hole**. The SCPGA Foundation has been a beneficiary of the Caddy for the Hole program for the last seven years. The program has been successful on all accounts – for the participating facility (program provides additional incremental income), the participants (the program provides worthwhile prizes), and most importantly, *Junior Golf!*

Proceeds from the Caddy for the Hole program have far exceeded our greatest expectations, and have provided additional funds enabling us to continue to provide outstanding junior golf programs for the youth of the Southern California Section.

Mr. Coffman and Caddy for the Hole have proven their legitimacy by their longevity in the industry. There have been many (what seem to be) similar promotions come and go over the years, but Caddy for the Hole has remained as a stellar organization, one which we are proud to be associated with.

I encourage you to consider the Caddy for the Hole program at your facility. I am certain it will be worthwhile, both financially and in support of the future of our game – junior golf!

Please do not hesitate to contact me with any questions.

Sincerely,

Nikki Gatch  
Assistant Executive Director  
SCPGA
